## Rail access in the Frankfurt Rhine-Main metropolitan region

- **Rail access point** for customers without their own private siding
- Professional handling of paper rolls and palletised goods with **clamp forklifts or forklifts**
- **Warehouse logistics**, incl. monitoring of delivery deadlines, inventory monitoring, order picking and customs clearance
- **Gantry crane** for the transshipment of containers, swap bodies, steel, sleepers, precast concrete parts, square-sawn timber, etc.
- **Staging areas** for various building materials
- Loading and unloading of ballast, sand, gravel and other materials using **wheel loaders, crawler and mobile excavators**

## Darmstadt Railport in figures:

### Warehouses:

Covered track infrastructure:	250 m
Storage area (heated):	5,600 m <sup>2</sup>
Storage area (unheated):	4,200 m <sup>2</sup>
Warehouse height:	up to 11 m
Shelving system:	1,600 storage spaces

### Outdoor storage:

Crane runway length:	180 m
Portal area:	30 m
Carrying capacity of the crane:	42 t
Public siding with side-loading platform:	180 m
Staging area:	3,600 m <sup>2</sup>

### Construction logistics:

Track infrastructure:	380 m
Staging area:	approx. 15,000 m <sup>2</sup>
